### DETAILED ACTION

1. Claims 58-65 are allowed.
2. On page 1, line 4, there is no reference to parent case, SN 10/269,067 under the cross-reference to related application portion of the specification.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
4. Claims 1-14,16-18,22-43,45-49 and 53 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the structure of either Hunter (4,877,429) or Tsargorodski et al. (6,152,163) or GB 2,232,364 A, all of which show a valve block structure containing channels, cavities and passageways for the placement of valves and being connected to an adsorption device or vessel.
5. The remaining references listed on both the PTO-1449 and the PTO-892 show art of interest only.
